The rumorologists have persistently ger." It will be interesting to hear ties and the Inter-Island Steam Navi-

think of the new combination. The pacific Rural Press says:

"Lest some of our readers, through hard-headedness and heartedness, may In the absence of which now declares itself to possess

Claim To Earn 14 Per Cent The common stock of the combined concern is priced at a figure on which the net earnings of this year would re-tern fourteen per cent. This figure of profits has a largeness which we ap-prehend but perhaps do not understand as well as a business man would. We seem, however, to understand better when we come to such plain English as

The new company will be engaged in the preparation of food products on the Pacific Coast, there it will rank as the largest factor in a basic industry of staits products throughout the United States and all important foreign markets. The growth in volume of business during 1914 and 1915, while substantial, was retarded by the European war. While domestie businem has become normal egain, the export trade is still un-favorably affected by the shortage of marine transportation, and a further substantial gain in sales is anticipated upon the cessation of

"There seems no sentiment in the 'basic industry of staple character' to loading the steers. such an extent that financiers are ready to blow millions into it and ex- be continued on Thursday. peet not less than fourteen per cent gain upon the present price of admis-sion tickets. How much more gain they will get we do not know, but this is enough to prove that even though the figures of the present are large, these uniness magnates are building upon fruit production as a greater industry in the future. No Soul-Uplift In It

But though there is doubtless a lifting of plush waistcoats as these merging millionaires think of the future of the California fruit industries as the to the military authorities within a basis of their investments we doubt if the care of the case of the ca cano will be ready for turning over the California fruit industries as the basis of their investments we doubt if they get so much uplift of soul from their end of the business as the fruit grower does from his, when his trees grow and bear well and the selling price alls his home with the comforts of the simple life. And of course it is the widespreading of the latter human in which is of the greater moment to the ready for turning over to the military authorities within a short time, according to information received here from Hilo Sunday.

Work on the officers' quarters is rapidly nearing completion and the quarters for the men are well adjusted to the military authorities within a short time, according to information received here from Hilo Sunday.

Work on the officers' quarters is rapidly nearing completion and the quarters for the men are well adjusted to the sunday and was in the contract will then ask the company if it ment with George Holt and was in the contract will then ask the company that the public may receive proper Road, Kalihi kai. Sanday afternoon he secured a row boat and conxed a ero ple of his young boy friends into it.

They noticed that he had no oars, very dors has been estimated to cost \$5000 and, according to an agreement made out into deep water. When his back by the officials of the street car com joy which is of the greater moment to
